MotoRad New Packing Rules for Pallets.

Illustrated Guide

Rule 1

› Equal or above 10 pieces, paper separation, pack together in one layer

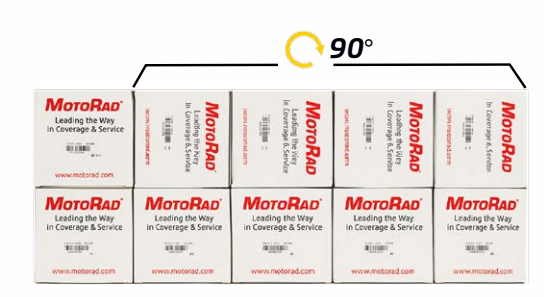

Rule 2

› Less than 10 pieces, no paper separation but pack together in one layer.

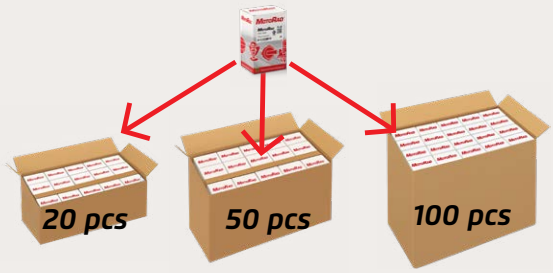

Rule 3

› Less than 10 pieces, group parts and rotate the next part 90° so that each part number faces a different direction.

Rule 4

› A-Box in suitable outer packaging 20/50/100, if no full MOQ; Rules 1 + 2 + 3 apply.

If no full MOQ » rules 1+2+3

Rule 5

› If more parts than required for a full layer, then Rule 1 in 2 or more layers.

Rule 6

› If parts are separated by different box sizes, in one layer, Rules 2 and 3 apply.

Rule 7

› One label per packed part number is attached on the overpack indicating number of pieces within the overpack.

Rule 8

› On each Pallet an address sheet with pallet number, a packing envelope with packing.
